Here are my suggestions. The PRAP does mention that portions of the site were reclaimed using fill material, but the way the press release is written, it overstates it, and also, I don't think it is necessary. The other two edits I made were based on the PRAP language.

Beyond that, I didn't really go back to the PRAP; I'm hoping the details of the preferred alternative are correct!

Who drafted this? 1909 the dates are all off – constructed in 1902, began operations in 1903 reclaimed from the Passiac in the late 1800s – I do not like being rushed to review this doc in 30 minutes while on a call but I will do the best I can. Let me know if you all have any comments. Thanks
